

City Recycling

Help Keep Our Recycling Stream Clean

Effective January 1, 2018 Due to changes in the recycling industry and the possibility of facing rate increases, the City now only collects certain recyclable items. Please review the list of acceptable recycling materials at JacksonvilleNC.gov/Recycle.

Should your recycling container include any unacceptable materials, your items may not be collected. Help us keep our recycling stream clean, and do not place any of the items listed below in your recycling container. Questions? Call Jacksonville Sanitation at 910 938-5338.
