Memorials and Honors Program

Bricks, Trees and Seasonal Plantings for Parks and Memorials in Honorarium

JacksonvilleNC.Gov/MemorialsAndHonors

Memorials and Honors Program

The City of Jacksonville Memorials and Honors Program provides opportunities for tributes in the form of trees, flowers and banners within a wide range of donations. The program is designed to help build on our urban forestry and support beautification efforts in the City. This program is a 'beautiful' way to honor your loved ones and share in the beauty of our local landscapes, and the City has designed the program to fit varying budgets.

The Jacksonville Memorials and Honors Program Includes:

- A donation to plant a tree for a green space or park
- A donation to contribute to plant a tree for a green space or park
- Seasonal Plantings in City parks and greenways
- Etched brick paver donation for the Freedom Fountain

Beautification - The program provides Citizens a way to honor and memorialize loved ones and pays for itself without a cost to taxpayers. This program, evolved through the Clean & Green Jacksonville effort, provides additional beautification efforts throughout the City and builds a register of Community giving online, at City Hall and eventually at parks and other locations.

Affordable - The Memorials and Honors Program provides donation opportunities at varying budgets. Donations less than \$100 are accepted in tribute to honor or as a memorial and will be aggregated until an amount reached enough to fund a tree. Each honoree or person for whom the memorial gift is made will be listed separately and a numbered tree would be listed as the personification of that tribute.

Recognition - The City of Jacksonville keeps a register of all donations to the Memorials and Honors Program. This list is available online and at City Hall. The list includes donors name, honoree name, amount donated, type of planting and location. As of 2014, trees are no longer marked with a plaque due to cost, and in an effort to concentrate funds on purchase of plantings. Existing markers will remain in place but not replaced when damaged. When able the City plans to add signage at major parks or planting locations identifying plantings. Temporary signage will be placed at locations where seasonal honors or memorials are made.

Trees

Tree Donation Memorials & Honors

- *\$50 Contribution to plant a tree*
- *\$100 to plant a tree*
- *\$200 to plant a larger or 'key' specimen*
- *All tree donations are listed in the City's Tree Registry*

Traditional Tree Memorial

For a contribution, an honor or a memorial can be made for a person or event. A memorial is for a person or persons who are deceased. An honor would be for an event, a person or a group. Honors could include graduation, a milestone birthday, a significant achievement or some other life event.

The contribution is recorded in a master registry that will be available on the City's Website. The family of a person being memorialized would be notified at the discretion of the donor, or the person being honored would be notified if so desired. The database would detail where the tree is, and who made the contribution, unless the donor wished to remain anonymous.

\$50 - Suggested minimum contribution to the tree fund in honor or memory of someone. These funds will be combined with other donations to plant a tree at a City Park or site as needed.

\$100 - This will fully fund a single tree planted in honor or memory at a location. The tree type and the location will be selected by the City based on the master plan for parks, fields and City maintained areas.

\$200 - This will fully fund a single specimen or key tree planted in honor or memory. This would include trees planted as part of the master plan at a park, such as the Sturgeon City Park or a special tree at an athletic field. Certain locations can only contain trees appropriate for that location.

Any amount less than \$100 would be accepted for a tribute in honor or as a memorial. Since this would not fully fund a tree, several donations would be aggregated until an amount reached enough to fund a tree. In the register of Memorials & Tributes, each honoree or person for whom the memorial gift was made would be listed separately and a numbered tree would be listed as the tribute.

Trees & Plantings

Freedom Fountain

Etched Pavers at the Freedom Fountain

The Freedom Fountain is located at New Bridge Street and Johnson Boulevard, the gateway to downtown Jacksonville. The fountain honors all individuals who have served and are serving the United States of America and especially those who have passed through Onslow County in the service of their country. Each paver donated is engraved in honor of a loved one. You can choose from three sizes; a single paver at \$100, a square paver \$250 or four square paver for \$1,000. Pavers are placed on the walkway between the wall and fountain.

Etched Pavers at Remembrance Garden and Fountain, Public Safety Complex

With a planned location next to the New River along Marine Boulevard in Jacksonville, the Public Safety Remembrance Garden will be a scenic environment located on the grounds of the new Center for Public Safety. This space will include a fountain, sitting area, flowering tree landscaping and brick pavers and be a place to reflect and honor the men and women who have given their lives in the line of duty. Brick pavers are available for purchase, will become a permanent part of the garden and may memorialize departed officers, friends or loved ones who have served in public safety. You may choose a single paver at \$100 or a square paver at \$250.
